<http://www.ibm.com/developerworks/java/jdk/aix/service.html>

For Windows O.S.

Inside of the compressed file is present :

1. SETUP.EXE

This is the autoinstallation file of tool NWM (Netviewmaster).

Run the Setup.exe and follow the instructions.

For Other O.S.'s

Inside of every compressed file is present:

1. <NetViewMaster-n.n-“Platform Name”installer>.BIN

This is the installation file of tool NWM (Netviewmaster).

2. Tool installation Netviewmaster

Copy <NetViewMaster-1.0-“Platform Name”installer>.BIN in one local folder .

Example: usr/local

For launch the installation of tool Netviewmaster (.BIN) the main rule in order nearly all platforms LINUX/UNIX is that one to make to precede with one” ./ ”the name of the file “bin” .

In Linux an example:

./ netviewmaster-1.0-linux-installer.bin

It will come executed a guided installation of the application.

Accept the license to use the tool.
