

## Impact solutions for industrial and business environments

# Compuprint

9058  
9058D

The Compuprint 9000 family is designed to meet the most demanding requirements of today's applications while offering unmatched performance in Windows and graphic printing environments. The ideal solution for mission critical requirements, with the full flexibility to support a variety of forms and documents.

### Value and Features

- Long life 24 pins print-head technology
- 480 cps at 10cpi up to 720 cps max speed
- Superior performance in volume printing
- Dual front straight paper paths
- 8 copies capability
- Simple to use, pre-set configurations
- Wide range of barcodes and macro-characters

### A leading-edge series for today and tomorrow

Compuprint 9058 and 9058D integrate the latest technology and innovation based on more than 30 years of Compuprint leadership in the serial printer technology.

It represent the preferred choice for business and industrial printing applications requiring up to 40,000 pages per month workload, providing the best investment for many years of worry free service.

### Fast, flexible, reliable

Compuprint 9058 and 9058D are built on state-of-the art technologies and innovative functionalities. With the two configurations, including the single sheet and one tractor (9058) or the dual front tractors (9058D), these models cover all the most common paper handling requirements. These models provide superior performance in traditional impact applications and high levels of flexibility and automation for the user with a unique paper path for superb reliability.

### For a broad range of connectivity and printing requirements

A large number of character sets, fonts and barcodes combined with a wide set of interfaces and protocols allow the printer to connect in most contemporary environments and to be the ideal solution for industrial requirements for printing macro characters, barcodes and pre-printed forms.
