

Windows7 and Windows8 Drivers Installation tool

Compuprint has developed signed & certified drivers for Win7 and Win8 (32 and 64 bit).

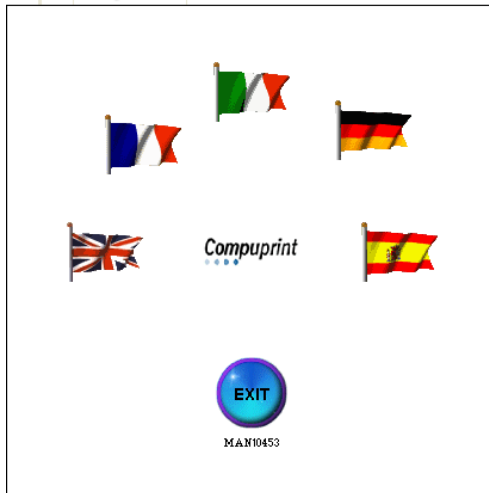

The executable file **Compuprint_Drivers_Installation_MAN10453.exe** contains all the signed drivers for the following printers:

- Compuprint 9058-58D
- Compuprint 9060-9070-9090-9200-10200
- Comp9050-9065-9080-10300-9300-9300e-9070plus
- Compuprint 4051 plus
- Compuprint 4056 plus
- Compuprint 4247 L03
- Compuprint 4247 X03
- Compuprint 4247 Z03
- Compuprint SP40_SP40Plus_SP40PlusT

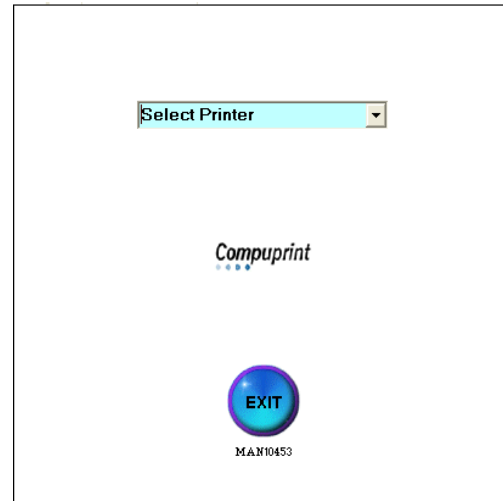

Double click of the executable file, the tools ask for a folder in which store the files and subfolder.

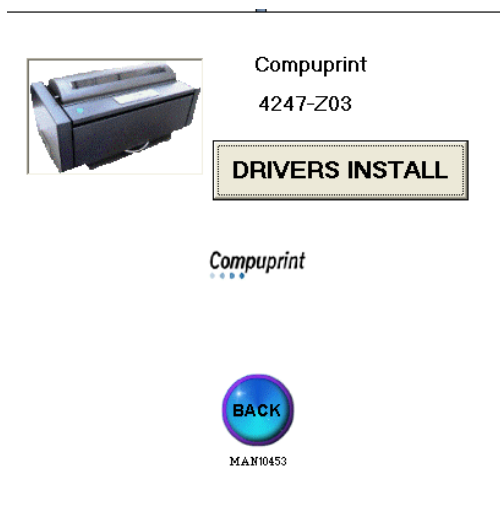

Double click on the **Drivers_Install.bat** file and the following masks will appear:

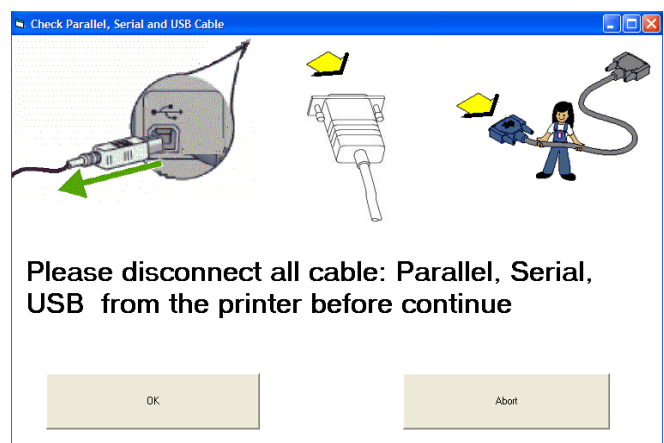

Choose the language

Select the printer model

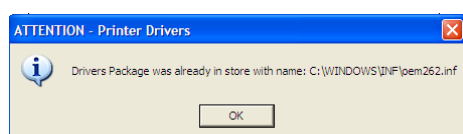

Click on Driver Install

Remark to disconnect all interface cables

The tool will install the selected driver In the Windows store

If the driver is already installed an attention message will de displayed.
